

YOUR CONSUMER OWNED ELECTRIC UTILITY SINCE 1893

The Renewable Resource Fund

Your voluntary contribution can help create jobs, provide power, and protect Maine's environment!

What is Maine's Renewable Resource Fund?

- The Maine Renewable Resource Fund permits our customers the opportunity to help support the development of new and innovative ways to produce electricity from renewable resources (wind, water, sun, wood, trash-to-energy, tides, fuel cells, and geothermal energy).
- This voluntary contribution can help create jobs, provide power, and protect Maine's environment.
- The State Planning office will administer this Fund as a grant program to support research and development of renewable resource projects through Maine's public higher education institutions (the University of Maine, The Technical College System, and the Maine Maritime Academy).
- Community groups are also able to apply for funding for demonstration projects outside the educational system.

What does your donation offer you?

- Your chance to help promising new technologies, which use renewable resources to generate electricity, come to the market.
- An investment in creating different sources of energy, to help maintain an adequate and reliable supply of electricity for the future.
- A step toward a cleaner, healthier environment for the people of Maine.

How does the Fund work?

- You can make a one-time donation, or choose to give a set amount each month that will be reflected on your power bill and is in addition to electric service and delivery charges.
- You can cancel at any time.
- The State Planning Office will administer the funds you contribute.

Who is the Fund supported by?

- League of Women Voters
- Maine Audubon
- Maine Council of Churches
- Maine Global Climate Change, Inc.
- Maine Physicians for Social Responsibility
- Maine Renewable Energy Association
- Natural Resources Council of Maine
- Office of the Maine Public Advocate
- The State of Maine Public Utilities Commissioners

How do I participate?

- To voluntarily contribute, please visit [Kennebunk Light & Power \(klpd.org\)](http://Kennebunk Light & Power (klpd.org)) and complete the [Maine's Renewable Resource Research and Development Fund Form](#) and click "submit" or complete the form below and return to KLPD.
- **Current Participants**, please visit [Kennebunk Light & Power \(klpd.org\)](http://Kennebunk Light & Power (klpd.org)) and complete the **Contribution Change Form** to make changes to your contribution or complete the form below and return to KLPD.
